PROFILE

Seasoned UI/UX expert with a fervent dedication to crafting solutions that improve lives through creative design. Currently excelling in a full-time UI/UX role, I bring a passion for user-centric innovation and a proven track record of meaningful contributions. Eager to leverage my skills in a new opportunity where I can continue to drive impactful design solutions and contribute to dynamic projects.

EXPERIENCES (5+ years)

Unify (UI/UX Engineer)
2026-Present

- Technologies & Tools: Figma, FigJam, Angular material

SAS (UI/UX Analyst)
2025

- 7 Months Full Time
- Technologies & Tools: Clickfunnel, Wordpress, Figma

VXD (Creative Designer-UI/UX)
2025

- 7 Months Full Time
- Technologies & Tools: Clickfunnel, Wordpress, Figma

HalaByte (Frontend Developer cum Designer)
2024-2025

- 5 Months Contract
- Technologies & Tools: Clickfunnel, Wordpress, Figma

Amplifyn (UX Content Writer)
2024

- 2 Months Contract

Avelve (Web Developer/Web Designer)
2024

- 3 Months Contract: Individual Projects
- Technologies & Tools: Klaviyo, Zoho, Clickfunnel, Wordpress, Figma

Xitricon (UI/UX Engineer)
2023-2024

- Projects: Navulia
- Technologies & Tools: Java, Angular, Git, Figma, Illustrator, Sketch, Adobe

Xitricon (Associate UI/UX Engineer)
2022-2023

- Projects Completed : SRM and E-tendering
- Technologies & Tools: Angular, .Net, SQL, Git, Figma, Illustrator, Sketch, Adobe

Lanka Software Foundation (Software Engineer Intern)
2020-2021

- Projects Completed : THRM Project, NCoE Project, Suraksha Project, Moe Reform Work Project.
- Technologies : PHP, CSS, HTML, MySQL and Git

SKILLS

Emotional Design	Interaction Design
User Research	Usability Testing
Personas	User Journeys
Story Boards	User Interviews
Mental Models	Brainstorm
Information Architecture	Use AI for Designing

TOOLS I USE

Figma, Fig jam	Bootstrap
Canva	Pen & Paper
Spline	Angular Material
Adobe Photoshop	HTML & CSS

WHAT CAN I DO FOR YOU

- user experience design
- problem solve
- empathy mapping
- content design
- prototype design
- typography
- user interface design
- advertisements design

EDUCATION

UNIVERSITY OF MORATUWA - FACULTY OF INFORMATION TECHNOLOGY

- Graduated in B.Sc. (Hons.) Degree in Information Technology (2022) 2017-2022

Pl/Medirigiriya National college - POLONNARUWA

- G.C.E Advanced Level: Physics – C, Chemistry – C, Biology - C 2012-2014

Pl/Ananda Balika National college - POLONNARUWA

- G.C.E Ordinary Level: 7 A s & 2 B s 2005-2011

CERTIFICATES

- "Fundamentals of UX Design" offered by Coursera See credential
- "HTML, JavaScript, & Bootstrap" Course offered by Udemy See credential
- "UX Fundamentals" offered by GYMANASIUM See credential
- "Design Systems for Developers" offered by GYMNASIUM See credential
- "Responsive Web Design" offered by FreeCodeCamp See credential
- "Design Systems for Designers" offered by GYMNASIUM See credential

LANGUAGES

- Sinhala - Native Proficiency
- English - Working Proficiency
- Tamil - Elemantary Proficiency

INERESTS & HOBBIES

REFEREES

Sanjaya Karunasena
Executive Consultant for Product Development, Navulia
Xitricon FZCO(Dubai, UAE)
Telephone: (+94) 777 382548
Email: sanjaya.karunasena@xitricon.com

Sherazad Hamit
Program Director,
Code for Sri Lanka, Lanka Software Foundation,
Telephone: (+94) 777 374957
Email: sherazad@opensource.lk

PROJECTS

Navulia Project:

2023 - 2024

- Navulia aims to digitize supplier onboarding for enhanced efficiency, providing an intuitive interface and striving for full automation by integrating with ERP.

Technologies used: Java, Angular, Figma, Illustrator

SRM and E-tendering:

2021 - 2023

- The aim of the SRM and eTendering project is to optimize supplier relationships, streamline procurement processes, and enhance transparency through efficient electronic tendering methods.

Technologies used: Angular, .Net, SQL, Figma, Illustrator

Level-4 Final Year Project (FYP): Automated UML Diagram Generator

2021 - 2022

- The aim of this research project is to develop a system for drawing the UML diagrams from the given requirement documents with the use of Natural Language Processing techniques.

Technologies used: NLP, Python, Machine Learning

Moe (Ministry of Education) Reform Work Project:

2021

- The aim of this project is to collect some baseline information about students, their families, and the possible media which they can access to online learning due to COVID-19 pandemic period. The project is developed with two main APIs, and I was assigned to develop the frontend and test the project.

Suraksha Project: Insurance Management System

2020 - 2021

- The Suraksha API's aim is to connect the Sri Lanka Insurance Corporation's system (SLIC) and Student Information System (SIS) of Ministry of Education (MOE) to make the claiming processes easier and accurate.

NCOE (National College of Education) Project:

2020 - 2021

- The aim of this project is to facilitate the application process for candidates who want to become teachers. It was done by creating an online application which tries to minimize the incidence of common application errors in the first phase.

Technologies used: CSS, HTML, PHP, MySQL, and Git

THRM (Teacher Human Resource Management) Project:

2020 - 2021

- The primary aim of the THRM is to collect, provide and analyze real-time data for better decision-making including the modules students, teachers, principals, schools, educational offices at zonal and provincial levels and the Ministry of Education.

Technologies used: PHP, MySQL, and Git

Level-2 Software Project: Insurance Management System

2019 - 2020

- The aim of this project is to develop broker-based Insurance Management System with web application for brokers and clients which helps to overcome the circumstances of managing routines.

Technologies used: Angular8, MySQL, NodeJS and Git
